INDEX TO VOLUME CXLIX.

Abdominal Surgery. A new method of closing the abdomen after laparotomy, Higgins, F. A., 645; Cæsarean Section for hydatid mole, Warren, J. C., 102; Gastrotomy for foreign body, Warren, J. C., 103; Intestinal obstruction following operation for appendicitis, 104; Laparotomy for intestinal obstruction, Beach, H. H. A., 104; the operative treatment of umbilical hernia, Warren, J. C., 400.

Addresses. Surgical tuberculosis 1, Burrell, H. L.; the Shattuck Lecture, Smith, T., 57, 87, 115, 139; memorial meeting to John Homans, M. D., 389; Bradford, E. H., 397; Cabot, A. T., 393; Richardson, M. H., 389; Shattuck, Geo. B.; address at memorial meeting to Morrill Wyman, M. D., 195; Walcott, H. P., 195; Nichols, J. T. G., 203; Councilman, W. T., 202; Fitz, R. H., 201; the relation of laboratory research to the general practitioner of medicine, 473; present problems, an address to the nurses of the Lakeside Hospital, 521.

Adrenalin in surgical shock.

Advice. Lay advice to recent graduates in medicine, 27; American Journal of Orthopedic Surgery, 301; American Society of Clinical Surgery, 526; American research, 411; athletics for girls, 534; baby incubator, 245; Behring on tuberculosis, 525; Boston Association for the Relief and Control of Tuberculosis, 50; British Medical Association, 244; cholera, 357.

Albuminuric Retinitis, 649.

Alcohol. Treatment of alcoholic toxemia, Hall, Arthur J., 350; studies on the action in disease, Cabot, R. C., 93; alcohol versus alcoholics, Buckingham, E. M., 137.

Altitude Treatment for Tuberculosis. Hall, J. N., M. D., 350.

American Research, 411.

Anatomy. Problems of clinical, Dwight, T., 119.

Anesthesia. Scopolamin-morphin mixture in labor, 180.

Antityphoid. The protection effect of antityphoid inoculation, 470.

Aphasia. As a complication of measles, Gilman, Warren R., 177.

Appendicitis. Intestinal parasites in, 623.

Appendicostomy, 25.

Arnold, H. D. The relation of laboratory research to the general practitioner of medicine, 473.

Association of military surgeons of the United States, 182.

Austin, A. E. Indol of the feces as a measure of putrefactive processes in the intestines, 672.

Baginsky, Adolf. Typhoid fever in children, 721.

Baldwin, L. B. Syphilis in dentistry, 159.

Bartol, J. W. Influence of wind on phthisis, 237.

Beach, H. H. A. Memorial to Wm. Cadge, 557.

Bibliography. Albert, E., diagnosis of surgical diseases, 685; Schambery, J. F., compend of diseases of the skin, 686; Holmes, B., surgical emergencies, 686; Mason, R. D., office treatment of rectal diseases, 686; Moynihan, B. G. A., surgical treatment of gastric and duodenal ulcers, 686; Stevens, A. A., modern matera medica and therapeutics, 685; Hale, H. E , anatomy, medical epitome series, 714; Cowles, Edward, M.D., retirement of Dr. Edward Cowles from the McLean Hospital, 690; Drew, C. A., was he insane? a study in mental diagnosis, 674; centenarian, 689; Farlow, J. W., some cases of facial erysipelas from erosions of the nasal septum, 670; Egberts, S., manual of hygiene and sanitation, 657; Lea Bros. & Co., medical news visiting list, 657; Muller, P. J., das Schulzimmer, 657; Ogden, J. B., clinical examination of the urine, and urinary diagnosis, 656; Stoney, Emily, practical points in nursing, for nurses in private practice, 656; Taylor, J. J., physicians pocket account book, 657; Wood & Co., Wm., medical record visiting list, 657; Baruch, S., the principles and practice of hydrotherapy, 657; Abt, J. A., practical medicine series of year books, vol. 7, pediatrics and orthopedics, 685; Allingham, H. W., operative surgery, 685; Atwater, W. O., Billings, J. S., Bowditch, H. P., Chittendon, R. H., and Webb, W. H., physiological aspects of the liquor problem, 326; Baldwin, L. B., and Larned, E. R., syphilis in dentistry, 159; Barton, W. M. and Wells, W. A., a thesaurus of medical words and phrases, 466; Bridge, N., tuberculosis, 353; Chart of the three great systems — arterial, venous and nervous, 524; Clark, J. J., protozoa and disease, 604; Cohen, S. S., a system of physiologic therapeutics, vol. 10 pneumotherapy by Tissler, P. L., 159; Cohen, S. S., a system of physiologic therapeutics, vol. 8 rest mental therapeutics, suggestion by F. X. Dercum, 410; Crandall, F. M., how to keep well, 466; Cross, M. I., and Cole, M. J., modern microscopy — a handbook for beginners and students, 631; Dorland, W. A. N., the American illustrated medical dictionary, 466; Dwight, E. W., Dwight's epitome of medical jurisprudence, 298; Eisendrath, D. N., a textbook of clinical anatomy, 493; Gould, Geo. M., the American year book of medicine and surgery for 1903, 159; Grunwald, L., atlas and epitome of diseases of the mouth, 20; Hammer, W. J., radium and other radio-active substances — palonium, actinium and thorium — with a consideration of phosphorescent and fluorescent substances, the properties and applications of selenium, and the treatment of disease by the ultra-violet light, 576; Helferich, H., atlas and epitome of traumatic fractures and dislocations, 21; Hunn, J., handbook of climatology, 381; Jacobi, Prof., portfolio of dermochromes, English adaptation of text by J. J. Pringle, 524; journal of proceedings of the sixth annual convention of the national association of state, dairy and food departments held at Portland, Ore., 409; Matthews, J. McDowell, how to succeed in the practice of medicine, 604; Minot, C. S., a laboratory text-book of embryology, 493; Muir, R., and Ritchie, J., manual of bacteriology, 21; Mumford, J. G., a narration of medicine in America, 551; Opie, E. P., disease of the pancreas — its cause and nature, 189; Pawlow, J. P., the work of the digestive glands, 576; Peterson, R., obstetrics, vol. 5, in practical medicine series of year-books 108; Peterson, F., and Haines, W. S., a textbook of legal medicine and toxicology, 270; Phillips, R. J., spectacles and eye-glasses, 381; Pilgrim, M. F., mechanical vibrator stimulation — its theory and application in the treatment of disease, 189; prevention of disease, translated by Bulstrode, H. T., 437; Pusey, W. A., and Caldwell, E. W., the practical application of the Röntgen rays in therapeutics and diagnosis, 575; Raymond, E. et Janet P., les obsessions et la psychasthénie, 132; Richards, Geo. L., nose and throat work for the general practitioner, 575; Robinson, Beverley, essays on clinical medicine, 551; Robinson, D. H., the Latin grammar of pharmacy and medicine, 631; Rockwell, A. D., the medical and surgical uses of electricity, 189; Suter, Wm. N., a manual of refraction and motility, 353; Schäfer, E. A., the essentials of histology, 159; Scheube, B., the diseases of warm countries, a hand-book for medical men, 270; Spaltehalz, von W., Handatlas da Anatomie des Menschen, 381; Szymonowicz, L., a text-book of histology and microscopic anatomy of the human body, including microscopic technique, 189; Toldt, C., and Rosa, A. D., an atlas of human anatomy for students and physicians, 576; Warden, A. A., an English hand-book to the Paris medical school, 326; Yeo, I. B., a manual of medical treatment of clinical therapeutics, 551.

Bitters, The physiology of bitters, British Medical Journal, 581.

Bitzer, L. The case of Louis Bitzer, Lane, E. B., 728.

Blake, J. B. Preliminary report on five cases of renal decapsulation, 171.

Blake, J. B. and J. H. McCollom. General peritonitis complicating scarlet fever, 639.

Blood Pressure. Some observations on, in the insane, 422.

Boards of Health. Report of New York tenement house department, 718; sanitary supervision of public water supplies a protection to public health, 687; sanitary conferences for the health officials of Connecticut, 717.

Boards of Health. Conference of the state and provincial boards of health of North America, 627; oppostion to Manila board of health, 355; work of New York tenement house department, 498.

Bonney, S. G. Internal medicine, to what extent required, or elective in the medical course, 507.

Boston Dispensary, 468.

Bovine Tuberculosis. Unclean milk and bovine tuberculosis and the tuberculin test, their relation to the public health, 594, 563.

Bowen, J. T. Scabies and impetigo contagiosa, 529; report on dermatology, 73; methods of teaching dermatology, 296.

Bradford, E. H. Address at memorial to John Homans, M. D., 397; the resistance of tissues as a factor in the manual reduction of congenital hip dislocation, 249.

Bradycardia, 331.

Brain. A brain hardened by Kaiserling's method, showing the track of a bullet, Whitney, W. F., 730.

Brain Tumor, 575.

Brent, Bishop. Work in the Philippines, 162.

Briggs, J. B. A note on the association of a rise in systolic blood pressure with the onset of perforative peritonitis in typhoid fever, 343.

Bright's Disease. Remarks on surgical treatment of chronic Bright's disease by renal decapsulation, Guiteras, R., 520.

Buckingham, E. M. Alcohol versus alcoholics, 137.

Bullet Wounds. Bullet wound of chest, 373.

Burns, Fred'k S. Some observations on X-ray therapeutics in skin disease, 481.

Burrell, H. L. Surgical tuberculosis, 1.

Burrell, H. L. and Cushing, H. W. Report of cases from the surgical service of the Children's Hospital, 372; report on progress of surgery, 431; Report on progress of surgery, the value of enterostomy in selected cases of peritonitis, 461.

Cabot, A. T. A case of calculus anuria relieved by operation, 465; address at memorial meeting to John Homans, 393; nursing as a profession, 193; observations on the effect of cathetic drainage on the function of the kidneys in interstitial nephritis and pyelonephritis, 559; acute flexion of the gall bladder as a cause of biliary colic. Its relief by operation, 725.

Cabot, R. C. Studies on the action of alcohol in disease, especially upon the circulation, 93.

Calculi. The formation of biliary calculi elsewhere than in the gall bladder, 715.

Calvert, W. J. Record of parasitic infections in the Philippines, 484.

Cardio-Pulmonary Murmur. The clinical associations and significance, Putnam, J. J., 8.

Carcinoma. Carcinoma of choroid metastatic from prostrate, Greenwood, A., 286; Surgical aspect of cancer of the intestines, Gage, Horne, 277.

Carcinoma. Adeno-carcinoma of rectum, 485; the English cancer research fund, 218.

Carcinosis. Case of carcinosis with secondary nodule in the eye, Southard, E. E., 287; a case of carcinosis of eye, 287; Gastric cancer, 292.

Catarrh. Chronic catarrh of the middle ear, 153.

Chapin C. S. Minor surgery in country practice, 310.

Charcot Joints, 71.

Chase, H. L. Efforts to abate the mosquito nuisance in Brookline, 123.

Cheever, D. W. Privileged medical communications, 252; advantages of small doses of opium, 247.

Chemistry, Physiological. Vejux-Tyrode, M, 14

Chloroform. Investigation on the action of chloroform, 160; Danvers Insane Hospital, 659.

Cholera. Prevalence of cholera in Manila, 54.

Chute, A. L. Urethral tuberculosis with report of a case, 361

Circulatory System. Perirenal hemorrhage, 32; measurements of blood pressure, 97; blood pressure after alcohol, 94; studies on the action of alcohol in disease, especially upon the circulation, Cabot, R. C., 93.

Clark, J. P. Nasal polypi, 147 cases, 10.

Climatology. Report of meeting of American Climatological Association, 682, 711.

Climatology. The invalid's Egypt, 221.

Clinical Department. Report of cases from the surgical service of the Children's Hospital, 372; a case of sarcoma of the lower jaw, 625; a case of post-typhoidal myositis of the rectus abdominis, 599; a case of myxedema, 567; report of meeting of the staff Mass. General Hospital, 428, 458, 485; mirror writing 515; two unusual forms of fracture,—fracture of the capitellum; fracture of the fifth metatarsal by inversion, 734.
Codman, E. A. Report of three cases of traumatic rupture of the kidney, 101; the formation of loose cartilages in the knee joint, 427.
Coley, Wm. B. Results of one thousand operations for the radical cure of inguinal and femoral hernia performed between 1891 and 1902, 17.
Color. The need of lantern test, Williams, C. H., 121.
Columbia University. Changes in the medical department, 81.
Cook, P. H. A case of epilepsy and nephritis simulating puerperal eclampsia, 568.
Cotton, F. J. and O'Neil, R. F. Routine treatment in a genito-urinary clinic; functions of such a clinic, 538.
Councilman, W. T. Address at memorial to Morrill Wyman, 202.
Craig, D. H. The relation existing between respiratory and intrapelvic disease, 281.
Cumston, C. G. Historical notes on the law governing civil malpractice in the ancient times and middle ages, 699.
Cumston, C. G. The plague of Athens, 449.
Cunningham, J. H. A table for operations upon the kidney through the lumbar incision, 597; a new frame for the treatment of fractures, 732.
Cushing, H. W. and Burrell, H. L. Report of cases from the surgical service of the Children's Hospital, 372; progress of surgery, 431–461.

Death. What was the cause of death? Paine, A. E., 731.
Delano, S. As to Pope Leo's case, pleuro-pneumonia, 652.
Dermatology. Report on, 73; Roentgen Rays in dermatology, 321; report of American Association, 296–321; scabies and impetigo contagiosa, 529.
Diagnosing. Pleuro-pneumonia, 652.
Diet. The dietary treatment of constipation, 314.
Diet. Consumption of horse-meat as food, 354; Daily Medical Journal, 191; Harvard Medical Alumni Association, 26.
Digestive System. Adeno-carcinoma of the rectum, Porter, C. A., 485; acute pancreatitis, operation, recovery, Porter, C. A., 430; case of post-typhoidal myositis of the rectus abdominis, Scannell, D. D., 599; cancer of the intestine, etc., its surgical aspect with report of cases, Gage, H. 277; dietary treatment of constipation, Hewes, H. F., 314; echinococcus cysts of the liver and lungs, Stone, A. K., 263; recent progress in gastro-intestinal diseases, Joslin, E. P., 292; gastric tetany, Moynihan, B. G. A., 501; inferences to be drawn from the examination of the gastic contents, Joslin, E. P., 232; intestinal obstruction from a twist and a tightly constricting band, Beach, H. H. A., 104; intestinal obstruction following operation for appendicitis, 104; intestinal parasites in appendicitis, Hubbard, J. C., 623; medical treatment of gastric ulcer, Wilbur, H. G., 208; obstruction of intestine, 429; the pathology and treatment of tardy post-operative intestinal obstruction with report of cases, Elliot, E., 47; report of case of gangrene of fifteen inches of cecum and ileum after operation for appendicitis; relief by artificial anus after repeated operations, Dandridge, N.P., 18; stomachal and intestinal derangements and affections of the fauces, pharynx, and air passages, Robinson, B., 535; study of pathological fermentation in the stomach, Hewes, H. F., 504; surgical treatment of gastric ulcer, Munro, J. C., 203; unclean milk, 563; vegetable food in gout and nephri. tis, 570; vesico-intestinal fistula, Hubbard, J. C., 402.
Dislocation. Cervical and its reduction, 443.
Dorland, W. A. N. American pocket medical dictionary, 657.
Drew, C. A. Was he insane? A study in mental diagnosis, 640.
Dudley, A. W. Septic endocarditis, 13.
Dunton, W. R. Some observations upon blood pressure in the insane, 422.
Durm, C. H. Observations on iodine reaction in children, 511.
Dwight, Thomas. Problems of clinical anatomy, 119.

Eclampsia. Renal decapsulation for puerperal eclampsia, 434.
Edes, R. T. Address at memorial to John Homans, M.D., 399.
Editorials. Preliminary training of nurses, 22; mortality of tenement-house population, 23; appendicostomy, 25; scientific work in psychiatry, 49; Boston Association for the relief and control of tuberculosis, 50; the regeneration of spinal nerve roots, 51; signed editorials, 80; Manila death rate, 80; changes in the medical department of Columbia University, 81; medical legislation of 1903, 109; paratyphoid fever, 110; suppression of the news of suicides, 111; obesity in youth, 133; nursing as a profession, 133; Journal of the Royal Army Medical Corps, 134; investigations on the action of chloroform, 160; municipal hospital for tuberculosis, 161; prevention of tuberculosis, 162; Bishop Brent's work in the Philippines, 162; spotted fever, 190; a daily medical journal, 191; legislation against the toy pistol, 191; progress in the treatment of the dependent poor, 216; etiology of yellow fever, 216; the diagnosis of insanity at sight, 217; Dr. Morrill Wyman, 218; hydrophobia, 243; the British Medical Association, 244; the pathology of smallpox, 245; sanitary administration in Pennsylvania, 271; the invalid's Egypt, 272; the late Major Walter Reed, M.D., 272; the new Massachusetts General Hospital—out-patient department, 273; the Long Island hospital investigation, 299; as others see us, 300; American Journal of Orthopedic Surgery, 301; alleviation of tuberculosis, 327; an epidemic of typhoid fever under peculiar circumstances, 327; department store pharmacy, 328; sex in industry, 328; the opening of the schools, 354; the consumption of horse-meat as food, 354; opposition to Manila board of health, 355; mortality statistics, 356; Stokes-Adams disease, 382; the water supply of New York, 383; opium trade in the Philippines, 383; eye-strain, 384; typhoid fever and impure ice, 410; international congresses on school health, 411; American research, 411; overcrowding of the profession, 438; the inoculation of a chimpanzee with syphilis, 439; new out-patient department Mass. General Hospital, 439; eye-strain, an over-worked theory, 466; the legal status of faith-healing, 467; the Boston Dispensary, 468; report of the surgeon-general of the army, 494; a year's medical book production, 495; Dowie in New York, 495; the therapeutic possibilities of radium, 524; Behring on tuberculosis, 525; American Society of Clinical Surgery, 526; physicians liability insurance, 552; athletics for girls, 554; the Nobel prizes, 554; euthanasia, 555; the master word in medicine, 577; the Spreckels physiological laboratory, 577; the organism of smallpox, 578; the German emperor, 578; public health problems, 605; the title of surgeon, 606; a timely rebuke, 606; scientific study of old age, 632; regeneration of the spinal cord, 633; a multiplicity of congresses and exhibits on tuberculosis, 633; Danvers Insane Hospital, 659; some reports upon food inspection, 658; report of the Surgeon-General of the United States Navy, 716; formation of biliary calculi elsewhere than in the gall bladder, 715; the retirement of Dr. Edward Cowles, 716; Harvard oarsmen, 688; scarlet fever, 687; sanitary supervision of public water supplies a protection to public health, 687; the cancer question, 743; hydrotherapy and allied methods of treatment, 744; investigation of the Butler typhoid epidemic, 743; physicians for the Philippines, 743.
Egypt. The Invalid's Egypt, Morrill, F. G., 221.
Emerson, Wm. R. F. Diseases of house officers in hospitals, 590.
Endocarditis. Malignant, Miller, L. C., 38; Endocarditis, septic, Dudley, A. W., 13.
Epidemics. The epidemic nature of appendicitis, 461; epidemic of diphtheria on shipboard, 185; the Ithaca epidemic, 548; epidemiology of typhoid fever, 548; epidemic of typhoid at Butler, Pa., 634; epidemic of typhoid fever under peculiar circumstances, 327.
Epididymitis. Acute epididymitis in an undescended testicle with gonococci, demonstrated in the excised organ, Murphy, F. T., 36.
Erysipelas. Cases of facial erysipelas from erosions of the nasal septum, Farlow, J. W., 670.
Esophagus. Brief summary of the surgery of the esophagus, Mixter, S. J., 228.
Euthanasia. 497.
Eye. Hitherto undescribed membrane of the eye and its significance, Verhoeff, F. H., 456; case of carcinosis with secondary nodule in the eye, Southard, E. E., 287; eye strain, 384.
Eye Strain. An overworked theory, 442; euthanasia, 555.

Faith Healing. A legal decision, 469.
Fever. Scarlet fever. General peritonitis complicating, McCollom, J. H. and Blake, J. B., 639; spotted fever, 190; epidemic of typhoid at Butler, Pa., 634; the Ithica epidemic, Covill, L., 548; the management and treatment of typhoid fever, LeFevre, E., 547; history, cause, and mode of transmission of yellow fever, 186; typhoid fever and impure ice, 410; etiology of yellow fever, 216.
Fevers. Scarlet fever, 687.
Fistula. Vescio-intestinal fistula, Hubbard, J. C., 404.
Fitz, R. H. Address at memorial to Morrill Wyman, 291.
Foster, F. P. Surgical advance in the United States, 663.
Food. Some reports upon food inspection, 658.
Football. English opinion of football, 635.
Foster, F. P. Surgical advance in the United States, 663.

Gage, Homer. Cancer of the intestine, etc., its surgical aspect with report of cases, 277.
Gall Bladder. Acute flexion of the gall bladder as a cause of biliary colic. Its relief by operation, Cabot, A. F., 725.
Gall Stones. Gall stone disease, 462.
Gastric Contents. Examination of, Joslin, E. P., 232.
Gastric Ulcer. Surgical treatment, Munro, J. C., 203; diagnosis of gastric cancer, Joslin, E. P., 292; medical treatment, Wilbur, H. G., 208; gastric tetany, Moynihan, B. G. A., 501; German emperor, 579.
Gilman, W. R. Report of a case of aphasia as a complication of measles, 177.
Gland. Present status of surgery of the prostate gland, Thorndike, Paul, 167.
Goldthwait, J. E. Tuberculosis of the spine, a statistical study of the cases in the orthopedic department of the Carney Hospital, 342.
Gould, Geo. M. The ill health of Francis Parkman, 305, 333, 366.
Grafting. Skin grafting following a burn, 487.
Greenwood, Allen. Carcinoma of choroid metastatic from prostrate, 286.
Generative System. Acute vesiculitis, especially treatment, Tuttle, J. P., 490; calculus anuria relieved by operation, Cabot, A. T., 465; complete avulsion of the scrotum, the skin of the penis, and the left testis, Ward, A. C., 464; conservative perineal prostatectomy, new instruments and technique, 488; exposing and draining the seminal vesicles, Fuller, E., 491; infection of the prostate, Vander Poel, J., 436; management of prostatics about to enter catheter life, Swinburne, G. K., 518; remote effects of syphilis, Post, A., 417; routine treatment in a genito-urinary clinic, functions of such a clinic, 538; strangulation of the testis due to torsion of the cord, Cabot, A. T., 437; surgical treatment of chronic Bright's disease by renal decapsulation, 549; vesical calculus of unusual dimensions, Post, A., 492.
Genito-Urinary. Acute epididymitis in an undescended testicle with gonococci, Murphy, Fred F., 36.
Greenwood, A. Albuminuric retinitis, 649.
Gunshot Wounds. Lesions that augment the development of tetanus and other infections in gunshot wounds, La Garde, L. A., 447.
Gynecology. Carsarean section, experience of the Boston Lying-in-Hospital, 409; etiology, pathology and treatment of puerperal sepsis, Vineberg, H. N., 407; surgical treatment of cancer of uterus, more especially by hysterectomy, Janorin, J.E., 433; treatment in cases of pregnancy complicated by fibroid tumor, Coe, H. C., 379; case of gumma of the fallopian tube, Whiteside, Geo. S., 671.

Hall, Arthur J. Treatment of alcoholic toxemia, 350.
Hall, J. N. Altitude treatment of tuberculosis, 350..
Hall, W. D. and Standish, M. Progress in ophthalmalogy, 376; use of X-ray in trachoma, 345.
Hall, J. N. and McGraw, H. B. Chronic cyanosis from acetanelid poisoning, 626.
Hammond, P. Progress in otology, external auditory canal, 126; progress in otology, mastoid disease, 151.
Hammond, G. M. Treatment of degenerative diseases of the nervous system by massive doses of strychnia with special reference to tabes dorsalis, progressive muscular atrophy, optic nerve atrophy and pseudo-muscular hypertrophy, 223.
Health. Ill health of Francis Parkman, Gould, Geo. M., 305, 333, 366.
Hernia. Operative treatment of umbilical hernia, Warren, J. C., 400.
Hewes, H. F. The dietary treatment of constipation, 304; study of pathological fermentation in the stomach, 504.
Higgins, F. A. A new method of closing the abdomen after laparotomy, 645.
Higgins, F. A. Report on obstetrics, 179; the surgical treatment of puerperal pyemia, 210.
Hip. Hip disease as seen in hospital out patients, Thorndike, P., 77; congenital dislocation of the hip, Wilson, H. A. and Rugh, J. T., 79; resistance of tissues as a factor in the manual reduction of congenital hip dislocation, Bradford, E. H., 249.
Howe, W. C. Report of cases from the surgical service of the Children's Hospital, 372.

Homans, John, M. D. Addresses at memorial meeting, 389.
Hospital. Long Island Hospital investigation, 299; Boston Floating Hospital, 52; Municipal Hospital for tuberculosis, 161.
House Officers. Diseases of house officers in hospitals, Emerson, W. R. P., 590.
Hubbard, J. C. Vesico-intestinal fistula, 405; intestinal parasites in appendicitis, 623.
Hydatid Mole, 102.
Hyperchlorhydria. Swan, R. W., 318.
Hypernephroma. Thorndike, Paul, and Cunningham, J. R., 611.
Hydrophobia, 243.
Hygiene. Unclean milk, bovine tuberculis and the tuberculin test, their relation to public health, 567, 594; conference of state and provincial boards of health of North America, 654; sanitary administration in Pennsylvania, 271; international congresses on school health, 411; New York tenement house department, 498; public health problems, 605; mortality of tenement house populations, 23.

Infantile Mortality. Systematization of efforts to reduce infantile mortality, 414; infantile mortality in Bombay, 165.
Inoculation. Inoculation of a chimpanzee with syphilis, 439.
Insane. Observations upon blood pressure in the insane, Dunton, W. R., 422.
Insanity. Diagnosis of insanity at sight, 217.
Instruments and Apparatus. Mechanical vibrator, 289; cheap traction splint, 235; mastoid and auricle retractor, 320; Nernst lamp, 37; prostatic retractor, H. H. Young, 489; table for operations upon the kidney through the lumbar incision, 597; frame for the treatment of fractures, 732.
Insurance. Physicians liability insurance, 552.
Internal Medicines. To what extent required or elective in the medical course, Bonney, S. G., 507.
Intestines. Indol of the feces as a measure of putrefactive processes in the intestiues, Austin, A. E., 672; vesico-intestinal fistula, 405.
Intestinal Obstruction. Following operation for appendicitis, 104; from a twist and tightly constricting band, 104.
Intestinal Parasites. In appendicitis, Hubbard, J. C., 623.
Iodine. Observations on the iodine reaction in children, 511.
